

## FOR A LITTLE WHILE

Be with me for a little while, stay right by my side  
Cuz' there's times when I still can't see, nothin' but that night  
Skin pelted with icy rain, washed away some tears,  
And now I'm asking again and again, get me thru' these years...

I search for comfort, help me find my smile  
lost inside myself, for a little while, .... for a little while

Side by side, seemed like moments before, everything was right,  
then fateful steps thru an open door, led by a guiding light.  
Now time's still movin', the days roll past, my mind is in a haze  
wonderin' how long this can last, stuck inside this maze...

I search for comfort, help me find my smile  
Lost inside myself, for a little while, .... for a little while

A part of America, died today  
A piece of me.....ripped away...

I'll search for comfort, you'll help me find my smile  
We're lost inside ourselves,  
for a little while, ....just a little while.

Side by side, it's gonna be alright  
Side by side, lead me my guiding light,...be with me my guiding light.....

\*Dedicated to the eternal memory of Officer Brian A. Aselton #251

\*Lyrics, music, & vocals by Officer Tony Piacenta #189 (Jan 1999)
